

Steps to start Practical 11 application:

Download nodejs from

<https://nodejs.org/en/download/>

1. Open directory 'L11' and run 'npm install mysql' and 'npm install http' in terminal
2. In directory Database>createDb.js, Line 6: and directory Js>index.js Line 7: replace password to your mysql database password that you have previously created.
3. In 'index.js' run 'node ./index.js'
4. Now open index.html file with live server .

Thank You!
